

Abers Acres

Abers Acres is a family enterprise managed by John, Susan and Adam Abers. Established in 1984 the business has grown to over 100 acres of prime agricultural land devoted to the production of pick-your-own and ready-picked choice seasonal fruits and vegetables.

We are a certified organic farm growing dozens of varieties of fruits, vegetables, herbs, cut flowers, grains and Christmas trees. We also have a flock of 150 laying hens for eggs, sell homemade pies baked fresh from our fruit, and maple and honey products sourced locally. Abers Acres has become recognized as one of the area's favorite spots to purchase fresh fruit and vegetables, enjoy the pick-your-own experience and savor the out-in-the-country bounty. We strive to produce high quality, flavorful, and nutrient rich food. Several area grocery stores carry Abers Acres fresh home grown produce in season.
